

# Beef Production Loss

## *Mycoplasma bovis* Programme

### Can I claim compensation for my beef production losses?

You may be eligible for payment of compensation if the Ministry for Primary Industries (MPI) has exercised powers under the Biosecurity Act 1993 (the Act) as a part of the *Mycoplasma bovis* (*M. bovis*) Programme and these powers have caused you to incur a verifiable loss.

In order to be eligible for compensation, the claimed loss of beef production must have been caused as a result of MPI's exercise of powers:

- Notice of Direction (NOD) to cull your stock is earlier than your business as usual (BAU). (And at a lesser weight.)
- Movement controls imposed on the farm or stock by a Notice of Direction or Restricted Place (RP) Notice have disrupted your beef production.

### Who can claim and who is paid compensation?

To be a claimant you must be a person or business who is the legal owner of the property or goods that were destroyed or damaged, or goods that were affected by movement restrictions as a direct result of an exercise of powers authorised by MPI.

### How do I claim compensation?

You'll need to complete and submit a Beef Production Loss claim form. This claim form is available either from your Incident Control Point (ICP) manager, the MPI webpage or by contacting the Compensation Co-ordinator. We will be happy to email a copy to you.

Once you have completed the claim form, you can email a copy along with your supporting information or send it in via post/courier to MPI's compensation team.

You will find the list of relevant documentation needed to support your claim in Part 3 on the claim form.

### When can I make a claim?

You can claim compensation from the date the loss was incurred, or within ONE YEAR from the date that verifies your loss. (MPI will only accept late claims in exceptional circumstances.)

### Minimising my loss

In your claim form, give us details that demonstrate what reasonable steps you had considered or taken to minimise or avoid any ongoing loss.

### How long will it take before I get paid?

MPI aims to process your claim and issue outcome letters (accept or decline) as quickly as possible once it has received your completed claim form and all supporting documentation. The average claim process is 20-25 working days. If all information is present and correct, then most claims can be assessed promptly.

### Can I make more than one claim?

You'll need to make a separate claim for each of the different types of losses you have incurred. Doing this will allow MPI to assess each loss as they occur and make prompt payment. All claims should be submitted to MPI within ONE YEAR from the date of loss. If you incur further losses after being paid compensation, you may still make another claim.

---

## Process

In some instances, MPI may need to contact you for further information either before an assessment can commence (the triage stage) or during the assessment process.

### Next steps - checklist

- Completed Beef Production Loss claim form
- Signed the Declaration
- Attached supporting documentation
