

MINISTRY FOR PRIMARY INDUSTRIES
IMPORTING COUNTRIES PHYTOSANITARY
REQUIREMENTS

FRENCH POLYNESIA

INCLUDING THE ÎLES DE LA SOCIÉTÉ (TAHITI AND MOORÉA) AND ÎLES
SOUS LE VENT (RAIATEA)

Status: Approved

Date: 27 September 2010

EXPORTERS ARE ADVISED TO CONFIRM THE IMPORT
REQUIREMENTS PRIOR TO EXPORT FROM NEW
ZEALAND

AMENDMENT RECORD

Amendment No.	Date:	Nature of amendment:	Approved by:
40	19 January 2024	Amended scientific name (typo) for <i>Delia antiqua</i> under section 4.1 Fresh Fruit and Vegetables. Removed requirements for <i>Allium cepa</i> and <i>Allium sativum</i> re-exported from China under section 4.1 Fresh Fruit and Vegetables.	AS/KE
39	14 November 2023	Added <i>Delphinium glaucum</i> , <i>Euphorbia hirta</i> , <i>Furcraea foetida</i> , <i>Furcraea hexapetala</i> , <i>Grevillea banksia</i> , <i>Grevillea robusta</i> , <i>Ligustrum robustum</i> , <i>Leptospermum scoparium</i> , <i>Melaleuca leucadendra</i> , <i>Melaleuca quinquenervia</i> , <i>Mimosa invisa</i> , <i>Mimosa pigra</i> , <i>Mimosa pudica</i> , <i>Opuntia aurantiaca</i> , <i>Opuntia ficus-indica</i> , <i>Opuntia cordobensis</i> , <i>Pittosporum undulatum</i> , <i>Schefflera actinophylla</i> and <i>Syzygium cumini</i> under section 2.1 Prohibitions. Added conditions for <i>Delphinium</i> spp., removed conditions for <i>Delphinium glaucum</i> , removed conditions for <i>Fuchsia</i> spp., amended spelling mistake (typo) for <i>Pittosporum undulatum</i> and removed exception for <i>Protea odorata</i> under section 4.3 Fresh Cut Flowers and Foliage.	AS

Amendment No.	Date:	Nature of amendment:	Approved by:
		<p>Removed Gymnospermae entry covered by separate family entries under 4.4.1 Whole Plants.</p> <p>Corrected additional declaration for <i>Rhododendron</i> spp. and amended scientific name (typo) for <i>Schefflera</i> spp. under section 4.4.1 Whole Plants.</p> <p>Added conditions for <i>Citrus</i> spp., and updated scientific name for tomato to <i>Solanum lycopersicum</i> under section 4.5.1 Seeds, Grains and Nuts for Sowing.</p>	
38	11 September 2023	<p>Clarified exceptions to <i>Cocos nucifera</i> prohibition under section 2.1 Prohibitions.</p> <p>Separated requirements for Growing Media and Packing Materials and updated treatments for Growing Media under section 3.5 Growing Media and Packing Materials.</p> <p>Combined <i>Capsicum</i> entries, updated scientific name for <i>Solanum lycopersicum</i> and clarified treatment requirements under section 4.1 Fresh Fruit and Vegetables.</p> <p>Corrected spelling of <i>capitata</i> in <i>Citrus</i> spp additional declaration and removed note under section 4.1 Fresh Fruit and Vegetables.</p> <p>Removed <i>E. longan</i> and <i>Lantana</i> spp. entries under section 4.4.1 Whole Plants.</p> <p>Added treatment requirement for <i>Ginkgoaceae</i> and amended common name (typo) for <i>Nandina</i> spp. under section 4.4.1 Whole Plants.</p> <p>Added additional declaration to <i>Capsicum</i> spp. and updated common name to Capsicum under section 4.5.1 Seeds for Sowing.</p> <p>Removed <i>E. longan</i> and <i>E. pulcherrima</i> entries under section 4.5.1 Seeds, Grains and Nuts for Sowing.</p> <p>Removed commodity specific entries under section 4.5.2 Seeds, Grains, and Nuts for Consumption, that are covered by the commodity class requirements under section 3.4.2 Seeds, Grains and Nuts for Consumption.</p>	AS
37	23 August 2022	<p>Updated section 2.1 Prohibitions.</p> <p>Updated section 3.2 Cut Flowers and Foliage to remove "Plant material to come from a</p>	GF

Amendment No.	Date:	Nature of amendment:	Approved by:
		<p>certified nursery under regular supervision of the Service of Plant Protection with no serious diseases (fungal, bacterial, viral or other) detected during visit(s) OR the plant materials are to have undergone a chemical treatment (see below)."</p> <p>Added section 4.5.2 reference to section 3.4.2.</p> <p>Updated section 4.3 Fresh Cut Flowers and Foliage to correct typo under <i>Lactuca sativa</i> for <i>Bemisia tabaci</i>.</p> <p>Updated section 4.3 Fresh Cut Flowers and Foliage to correct typo under <i>Fuchsia</i> spp.</p> <p>Updated section 4.4.1 Nursery Stock to correct the typos under <i>Averrhoa carambola</i>, <i>Cordyline</i> spp., <i>Diospyros</i> spp., <i>Euphorbia</i> spp., <i>Inga edulis</i>, <i>Jasminum</i> spp., <i>Litchi chinensis</i>, <i>Melaleuca</i> spp., <i>Myrtillocactus</i> spp. and <i>Syzygium</i> spp. <i>Zinnia</i> spp.</p> <p>Updated section 4.4.1 Nursery Stock to include conditions for <i>Geranium</i> spp. and Ginkgoaceae.</p> <p>Updated section 4.1.1 Nursery Stock to include scientific name for Ribbon bush.</p> <p>Updated section 4.5.1 Seeds, Grains and Nuts for Sowing to correct the typos under <i>Arecaceae</i>, <i>Chrysanthemum</i> spp., <i>Nephelium lappaceum</i> and <i>Nephelium mutabile</i>.</p>	
36	13 April 2021	<p>Added new section 3.6 Animal Feed and 4.7 Animal Feed and moved animal feed commodities from 4.8 Miscellaneous into the new sections.</p> <p>Consolidated Section 3.5 Growing Media and Packing Material and Section 4.6 Growing Media and Packaging Material.</p> <p>Removed Section 3.5.1 Growing Media as commodity conditions are already covered in Section 3.5 Growing Media and Packaging Material.</p> <p>Updated Section 2.3 Phytosanitary Certificates and Section 2.7 Re-exported Products.</p>	MLM/GF

Amendment No.	Date:	Nature of amendment:	Approved by:
35	22 April 2020	Amended requirements and added updated treatment options for Potato (<i>Solanum tuberosum</i>) in section 4.1.	GF
34	17 April 2020	Added the word 'or' between phytosanitary certificate and treatment requirements for Potato (<i>Solanum tuberosum</i>) in section 4.1. Added ' <i>Synchytrium endobioticum</i> ' to the additional declaration for Potato in section 4.1.	SR
33	14 November 2018	Amended requirements for <i>Protea</i> spp. cut flowers under section 4.3. Included reference to Potato Cyst Nematode and Potato Wart Official Assurance Programme for fresh potatoes under section 4.1.1.	SH
32	10 April 2017	Section 4.1 updated to clarify that fumigation is not required for <i>Capsicum</i> spp. and <i>Lycopersicon esculentum</i> provided the three additional declarations can be met and verified.	HK
31	17 February 2017	Removed requirements for mushrooms in order to seek clarification, section 4.1 & 4.2. Removed requirement regarding maturity stage for <i>Lycopersicon esculentum</i> , <i>Physalis peruviana</i> , <i>Solanum melogena</i> var. <i>esculentum</i> & <i>Solanum muricatum</i> section 4.1 as this is a grade quality requirement. Added requirements for re-exported <i>Citrus</i> spp. section 4.1.	HK
30	14 February 2017	Added 34 pests to the quarantine pest list section 2.4. Added general and commodity specific requirements for dried/processed fruits & vegetables in section 3.1.2 and 4.2 Added disclaimer to general conditions for nursery stock and seed, grains and nuts for sowing sections 3.3 and 3.4. Added dessicated coconut as an exemption to the prohibitions table section 2.1 Clarified requirements for <i>Lycopersicon esculentum</i> , <i>Capsicum</i> spp., and <i>Capsicum annuum</i> in fresh fruits and vegetables	HK

Amendment No.	Date:	Nature of amendment:	Approved by:
		<p>section 4.1 and seeds for sowing section 4.5.1, and tuber of <i>Solanum tuberosum</i> in section 4.4.3.</p> <p>Updated import requirements in fresh fruit and vegetables section 4.1</p> <p>Updated requirements for <i>Begonia</i> spp. in whole plants section 4.4.1</p> <p>Added requirements for <i>Cocos nucifera</i> and <i>Pinus picea</i> in seeds, grains and nuts for consumption section 4.5.2</p>	
29	8 December 2016	Updated section 2.7 to include requirements for <i>Coffea</i> spp. (unpasteurized green coffee beans) for re-export.	DY
28	22 November 2016	Updated the plant parts prohibited for <i>Coffea</i> spp. and other species under section 2.1 Prohibited List.	GF
27	12 May 2016	<p>Updated the import conditions for <i>Capsicum</i> spp. and <i>Lycopersicum esculentum</i>, Section 4.1 Fresh fruit and vegetables and Section 4.4.1 Seeds and grains for sowing and <i>Solanum tuberosum</i>, Section 4.3.3 Bulbs/tubers/corms/rhizomes etc.</p> <p>Addition of new sections entitled Fees and Charges, Section 1.4 and table headings in Table 1.</p> <p>Updated the link to the forestry ICPR, section 2.10 Wood Packaging</p> <p>Reformatted the presentation of the amendment record starting from the most recent record of amendments</p>	GF
26	8 September 2014	<p>Updated requirements for the export of <i>Allium</i> spp., section 4.1.</p> <p>Reformatted quarantine pest list.</p> <p>Additional section for wood packaging, section 2.10.</p>	SM
25	25 November 2013	<p>Additional statement added to section 1.2 to clarify scope of ICPR.</p> <p>Changed heading in section 2.5 to read MPI specified Maximum Pest Limits</p> <p>Corrected <i>Scirtothrips</i> to <i>Scirtothrips</i></p>	JN

Amendment No.	Date:	Nature of amendment:	Approved by:
24.	11 June 2012	Whole document - Ministry of Agriculture and Forestry (New Zealand) renamed to Ministry for Primary Industries	CB
23.	29 November 2011	Updated import conditions for Fresh Cut Flowers and Foliage. Section 3.2 and 4.3	VK
22.	22 September 2010	Updated import conditions for <i>Citrus</i> spp. French Polynesia Ministry of Agriculture September 2010. Section 4.1. Updated treatment conditions for fresh fruit and vegetables. Section 3.1.1	GI
21.	17 February 2010	Clarification of the requirement for freedom from <i>Urocystis cepulae</i> (Onion Smut) for <i>Allium</i> spp.. Freedom must be confirmed by a production site field inspection.	GI
20.	9 October 2009	Addition of updated French Polynesia website.	GI
19.	29 September 2009	Import conditions for dried <i>Ananas comosus</i> pineapple.	GI
18	22 May 2009	Minor reformatting	GI
17.	25 July 2008	Amendment of section 3.1.1 – inserting reference that in some specific cases treatment are compulsory and treatment details may differ from generic treatment requirements. These differences will be clearly stated in section 4 where applicable. Amendment of section 4.1.1 Fresh Fruit and Vegetables: Importing requirements for tomatoes and capsicums.	IV
16.	4 July 2008	Amendment of section 4.1.1 Fresh Fruit and Vegetables: Importing requirements for potatoes.	LK/IV
15.	12 June 2008	Amendment of section 4.1.1 Fresh Fruit and Vegetables: Importing requirements for potatoes.	IV
14.	22 March 2007	Amendment of MPI contact details Section 1.1	SW
13.	1 February 2005	Minor reformatting of the document	WJH
12.	14 December 2004	Amendment of requirements for <i>Zea mays</i> to be used as animal/stock feed, Refer Section 4.6. Amendment of MPI contact details Section 1.1, and correction of spelling/format	WJH

Amendment No.	Date:	Nature of amendment:	Approved by:
		errors within the document.	
11.	10 August 2004	Amendment of treatment requirements for 'growth media'. Refer Section 4.5.	WJH
10.	29 June 2004	Addition of conditions for <i>Allium sativum</i> (garlic) and <i>Allium cepa</i> (onion) re-exported from China. Refer Section 4.1	WJH
9.	19 April 2004	Amendment to Section 3.2 – Requirements for Cut Flowers and Foliage. Addition of website url and contact email address – Section 2.2.4	WJH
8.	3 February 2004	Amendment to Section 3.2 – Clarification of treatment requirements for Cut Flowers and Foliage	WJH
7.	20 August 2003	Changed spelling of Secs 3.1.1 and 3.1.2 AD for Edible and aromatic plants; Leafy veges; Root veges	SJW
6.	20 June 2003	Addition of <i>Nasonovia ribisnigri</i> as a quarantine pest. Reformatting of document.	WJH
5.	14 February 2003	Renaming and reformatting of standard. Amendment to Section 2.5 re MPLs.	WJH
4.	28 May 2002	Refer Section 4.1, amendment to Addition declaration requirements for fresh <i>Capsicum annuum</i> and <i>Lycopersicon esculentum</i>	WJH
3.	23 December 1999	Modification of Fresh fruit and vegetables (Section 3.1.1) and inclusion of Persimmon (<i>Diospyros</i> spp.) fruit (Section 4.1.6)	SCO
2.	28 October 1998	Addition of disclaimer statement	SCO
1.	5 October 1998	Inclusion of phytosanitary requirements for Growth media. Sections 3.5 and 4.5	DKN

DISCLAIMER

The phytosanitary requirements in this document may be used as the basis for export certification. However, exporters should be aware that importing countries may change their requirements at any time; at short notice or without giving notice to New Zealand.

This information is provided strictly on the basis that the Crown, the Ministry for Primary Industries, its statutory officers, employees, agents and all other persons responsible for or associated with the compilation, writing, editing, approval or publication of the information:

1. disclaim any and all responsibility for any inaccuracy, error, omission, lateness, or any other kind of inadequacy, deficiency or flaw in, or in relation to, the information;

and

2. without limiting (1) above, fully exclude any and all liability of any kind on the part of all of them, to any person or entity that chooses to rely on this information

Compliance with this document is not to be taken as a guarantee that any particular goods will be granted access to any overseas market. We recommend that exporters work with their importers to obtain the most up-to-date information.

1. General Information

Users of this document are strongly advised to read all sections to understand the phytosanitary requirements for a commodity.

1.1 For enquires about this document email Plant Exports Team: plantexports@mpi.govt.nz

Please state the nature of your enquiry in the subject line e.g. French Polynesia query or pest interception or password re-set.

For urgent enquiries phone or email Plant Exports

- Telephone: +64 4 894 5693

1.2 Scope

The requirements listed in this Importing Country's Phytosanitary Requirement (ICPR) apply to product of New Zealand only, unless specifically stated.

This ICPR specifies French Polynesia's phytosanitary requirements. If a commodity or commodity group is not identified within this ICPR exporters should direct enquireies to:

- French Polynesia directly to ascertain requirements
- or
- Ministry for Primary Industries New Zealand (MPI) - Plant Exports, refer to Section 1.1

1.3 Phytosanitary Legislation

The following legislation controls the importation of plants and plant materials into French Polynesia:

- Deliberation Number 93-155 of The Official Gazette of Polynesia dated 3 December 1993
- Deliberation Number 96-43 of The Official Gazette of Polynesia dated 29 February 1996

1.4 Fees and charges

- Please note that the determination and provision of phytosanitary requirements, for a commodity not identified within an ICPR, is undertaken on a cost recovery basis. A link to the list of Plant Exports Fees and Charges is available on <http://mpi.govt.nz/exporting/food/fruit-and-vegetables/fees-and-charges/>

2. General Requirements

2.1 Prohibitions

Table 1. Prohibited plants and plant parts into French Polynesia

Scientific Name	Common Name	Plant Part Prohibited
<i>Adonidia</i> spp.	Manila palm	All
<i>Alocasia</i> spp.	Taro	All
<i>Alpinia</i> spp.	Ginger lily	All
<i>Ananas</i> spp.	Pineapple	All except dried or candied fruit
<i>Areca</i> spp. <i>Areca catechu</i>	Betel nut palm	All
<i>Arenga</i> spp.	Kaong palm	All
<i>Arthyriosis japonica</i>		All
<i>Artocarpus</i> spp.	Breadfruit	All
<i>Atalantia</i> spp. syn. <i>Severinia</i> spp. and all hybrids	Chinese box orange	All except seeds
<i>Borassus</i> spp.		All
<i>Boronia</i> spp. and all hybrids		All except seeds
<i>Blechnum occidentale</i>		All
<i>Burkillanthus</i> spp. and all hybrids		All except seeds
<i>Carica</i> spp.	Papaya	All except seeds, dried fruit or candied
<i>Chrysalidocarpus</i> spp.		All
<i>Citropis</i> spp. and all hybrids	African cherry orange	All except seeds
<i>Citrus</i> spp. and all hybrids		All except fruits and seeds
<i>Clymenia</i> spp. and all hybrids		All except seeds
<i>Cocos nucifera</i>	Coconut palm	All except dessicated coconut, dried kernel, wood, coconut husks and nut shell

Scientific Name	Common Name	Plant Part Prohibited
<i>Coffea</i> spp.	Coffee bush	All except beans for human consumption
<i>Colocasia</i> spp.	Taro	All
	Compost	All
<i>Corypha elata</i> <i>Corypha</i> spp.	Gebang palm	All
<i>Cyathea australis</i>		All
<i>Cyathea cooperi</i>		All
<i>Delphinium glaucum</i>		All
<i>Dioscorea</i> spp.	Yam	All
<i>Elaeis guinensis</i>	African oil palm	All
<i>Eremocitrus</i> spp. and all hybrids	Australian Desert Lime	All except seeds
<i>Eriostemon</i> spp. and all hybrids		All except seeds
<i>Erythrina</i> spp.	Coral tree	All
<i>Euphorbia hirta</i>		All
<i>Fortunella</i> spp. and all hybrids	Kumquat	All except seeds
<i>Furcraea foetida</i>		All
<i>Furcraea hexapetala</i>		All
<i>Gardenia tahitensis</i>	Gardenia	All
<i>Gossypium</i> spp.	Cotton	All
<i>Grevillea banksia</i>		All
<i>Grevillea robusta</i>		All
<i>Hesperethusa</i> spp. and all hybrids		All except seeds
<i>Hevea</i> spp.	Rubber tree	All
<i>Howeia</i> spp.		All
<i>Ipomoea batatas</i>	Sweet potato	All

Scientific Name	Common Name	Plant Part Prohibited
<i>Leptospermum scoparium</i>		All
<i>Ligustrum robustum</i>		All
<i>Limonocitrus</i> spp. and all hybrids		All except seeds
<i>Livistona rotundifolia</i> <i>Livistona</i> spp.	Livingstone palm	All
<i>Mangifera</i> spp.	Mango	All
<i>Manihot</i> spp.	Cassava, Tapioca	All
	Manure	All
<i>Melaleuca leucadendra</i>		All
<i>Melaleuca quinquenervia</i>		All
Melastomataceae family		All
<i>Microcitrus</i> spp. and all hybrids	Australian wild lime	All except seeds
<i>Mimosa invisa</i> syn. <i>Mimosa diplotricha</i>		All
<i>Mimosa pigra</i>		All
<i>Mimosa pudica</i>		All
<i>Murraya</i> spp. and all hybrids	Mock orange	All except seeds
<i>Musa</i> spp.	Banana	All except dried leaves, chips and dried fruits
<i>Nicotiana</i> spp.	Tobacco	All
<i>Opuntia aurantiaca</i>		All
<i>Opuntia cordobensis</i>		All
<i>Opuntia ficus-indica</i>		All
<i>Oreodoxa</i> spp.		All
<i>Pamburus</i> spp. and all hybrids		All except seeds
<i>Pandanus</i> spp.	Pandanus	All except dried and woven leaves
<i>Persea americana</i>	Avocado	All

Scientific Name	Common Name	Plant Part Prohibited
<i>Phoenix dactylifera</i>	Date palm	All except dried fruit
Pinaceae family		All except seeds
<i>Piper methysticum</i>	Kava	All except dried or powdered root
<i>Pittosporum undulatum</i>		All
<i>Pleiospermum</i> spp. and all hybrids		All except seeds
<i>Poncirus</i> spp. and all hybrids	Trifoliolate orange	All except seeds
<i>Pychosperma</i> spp.		All
<i>Roystonea</i> spp.	Royal palm	All
<i>Saccharum</i> spp.	Sugar cane	All
	Sand	All
<i>Schefflera actinophylla</i>		All
<i>Severinia</i> spp. syn. <i>Atalantia</i> spp. and all hybrids	Chinese box orange	All except seeds
	Soil	All
<i>Skimmia</i> spp. and all hybrids		All except seeds
<i>Spondias cytherea (dulcis)</i>	Ambarella, Golden apple	All except dried or processed fruit and wood
<i>Syzygium cumini</i>		All
Taxaceae		All except seeds
<i>Theobroma</i> spp.	Cocoa	All
<i>Vanilla</i> spp.	Vanilla	All including pods and processed products
<i>Washingtonia robusta</i>	Washington palm	All
<i>Xanthosoma</i> spp.	Taro	All
<i>Zingiber</i> spp.	Ginger	All except processed products

2.2 Import Permits

- 2.2.1 Import permits state the general phytosanitary requirements for importation
- 2.2.2 Import permits are required for all consignments of plants and plant products except plants and plant products for human consumption. Import permits contain the specific phytosanitary requirements for specific commodities.
- 2.2.3 Import permits are normally valid for one consignment only
- 2.2.4 Import permits and conditions of import may be requested from:

Chef de Service
 Departement de la Protection des Vegetaux
 Ministere de l'Agriculture, de l'Elevage et de la Recherche
 B.P. 100, Papeete
 Tahiti

Telephone: 00689 54 45 85
 Facsimile: 00689 41 05 30

Email: djean.cheou@rural.gov.pf

Website <http://www.biosecurite.gov.pf>

2.3 Phytosanitary Certificates

Phytosanitary certificates are required for all consignments of plants and plant products.

Phytosanitary certificates must be issued no more than ten (10) days prior to export.

2.4 Quarantine Pests

Bacteria

<i>Agrobacterium tumefaciens</i>	<i>Erwinia tracheiphila</i>
<i>Apricot chlorotic leafroll phytoplasma</i>	<i>Erwinia vitivora</i>
<i>Candidatus liberibacter</i> spp.	<i>Pseudomonas asplenii</i>
<i>Corynebacterium michiganense</i> pv. <i>michiganense</i>	<i>Pseudomonas cichorii</i>
<i>Corynebacterium michiganense</i> pv. <i>sepedonicum</i>	<i>Pseudomonas gladioli</i>
<i>Corynebacterium flaccumfaciens</i>	<i>Pseudomonas gladioli</i> pv. <i>allicola</i>
<i>Corynebacterium flaccumfaciens</i> pv. <i>cortii</i>	<i>Pseudomonas gladioli</i> pv. <i>gladioli</i>
<i>Corynebacterium poinsettiae</i>	<i>Pseudomonas rubrilineans</i>
<i>Corynebacterium sepedonicum</i>	<i>Pseudomonas syringae</i>
<i>Enterobacter cloacae</i>	<i>Pseudomonas syringae</i> pv. <i>actinidae</i>
<i>Erwinia amylovora</i>	<i>Pseudomonas syringae</i> pv. <i>lachrymans</i>
<i>Erwinia ananas</i>	<i>Pseudomonas syringae</i> pv. <i>passiflorae</i>
<i>Erwinia chrysanthemi</i>	<i>Pseudomonas syringae</i> pv. <i>persicae</i>
<i>Erwinia</i> spp.	<i>Pseudomonas syringae</i> pv. <i>pisi</i>
<i>Erwinia (Xanthomonas) stewartii</i>	<i>Pseudomonas syringae</i> pv. <i>mors-prunorum</i>
	<i>Pseudomonas syringae</i> pv. <i>syringae</i>
	<i>Pseudomonas syringae</i> pv. <i>tomato</i>

Pseudomonas syringae
Pseudomonas viridiflava
Ralstonia solanacearum syn: *Pseudomonas solanacearum*
Ralstonia solanacearum race II syn:
Pseudomonas solanacearum race II
Xanthomonas ampelina
Xanthomonas axonopodis pv. *dieffenbachiae*
Xanthomonas campestris
Xanthomonas campestris pv. *aurantifolii*
Xanthomonas campestris pv. *begoniae*
Xanthomonas campestris pv. *citri*
Xanthomonas campestris pv. *dieffenbachiae*
Xanthomonas campestris pv. *gummisudans*
Xanthomonas campestris pv. *hederiae*
Xanthomonas campestris pv. *hyacinthi*
Xanthomonas campestris pv. *maculifoliigardeniae*

Fungi

Aecidium hydrangeae-paniculatea
Aecidium miliare
Alternaria alternate
Aspergillus flavus
Angiosorus (Thecaphora) solani
Apiosporina morbosa
Botryodiplodia spp.
Cephalosporium diospyri
Ceratostomella paradoxa
Cercospora asparagi
Cercospora bougainvilleae
Cercospora pini-densiflora e
Cercospora spp.
Cladosporium spp.
Colchliobolus carbonum (Dreschlera zei-cola)
Coleosporium domingensis
Colletotrichum coffeanum f.sp. *virulans*
Colletotrichum fragariae
Corticium salmonicolor
Crinipellis perniciosus
Cronartium spp.
Cryphonectria parasitica
Deuterophoma tracheiphila
Didymella (Phoma) chrysanthemi
Didymella spp.
Diplodia macrospora
Diplodia maydis
Dreschlera cactivora
Elsinoe batatas
Eulypta lata
Exobasidium vexans
Fusarium moniliforme
Fusarium oxysporum f.sp. *asparagi*
Fusarium oxysporum f.sp. *cubense* race IV
Fusarium oxysporum f.sp. *tulipae*
Fusarium oxysporum f.sp. *gladioli*
Fusarium subglutinans
Fusarium xylarioides
Glomerella cingulata
Guignardia citricarpa

Xanthomonas campestris pv. *malvacearum*
Xanthomonas campestris pv. *mangiferae-indicae*
Xanthomonas campestris pv. *manihotis*
Xanthomonas campestris pv. *oryzae*
Xanthomonas campestris pv. *passiflorae*
Xanthomonas campestris pv. *pelargonii*
Xanthomonas campestris pv. *pisi*
Xanthomonas campestris pv. *poinsetticola*
Xanthomonas campestris pv. *pruni*
Xanthomonas campestris pv. *vasculorum*
Xanthomonas campestris pv. *vesicatoria*
Xanthomonas campestris
Xanthomonas fragariae
Xanthomonas prunii
Xanthomonas spp.
Xylella fastidiosa

Gymnosporangium spp.
Hemileia vastatrix
Isariopsis griseola
Kuehneola malvicola
Kutilakesa pironii
Lasiodiplodia theobromae
Leptosphaerulina chartorum
Lophodermium pinastri
Melampsora medusae
Meliolina cladotricha
Monilinia fructicola
Mycosphaerella fijiensis
Mycosphaerella fijiensis f.sp. *difformis*
Peridermium spp.
Peronophytora litchii
Peronosclerospora philippinensis
Peronosclerospora sacchari
Peronosclerospora sorghi
Peronospora destructor
Peronospora manshurica
Peronospora tabacina
Pestalotia spp.
Phacidiopycnis pseudotsuga
Phaeoramularia (Cercospora) angolensis
Phellinus weirii
Phoma exigua f.sp. *foveata*
Phomopsis (Diaporthe) helianthi
Phomopsis spp.
Phomopsis theae
Phytophthora cactorum
Phytophthora cinnamomi
Phytophthora colocasiae
Phytophthora fragariae
Phytophthora heveae
Phytophthora megasperma f.sp. *glycinea*
Phytophthora parasitica
Phytophthora palmivora
Phytophthora ramorum
Plasmopara halsledii
Pseudocercospora purpurea

PseudoCercospora spp.
Puccinia arachidis
Puccinia arundinariae
Puccinia asparagi

2.5 Inspection on Arrival

All consignments are subject to inspection on arrival.

2.6 Sampling Rate

Not specified

2.7 Re-exported Products

Products which have been imported into New Zealand, which are subsequently re-exported to Tahiti must be accompanied by the following documents;

- the original phytosanitary certificate (or a certified copy) issued by the country of origin complying with the requirements for entry to Tahiti; and
- a re-export phytosanitary certificate issued by MPI, no more than ten (10) days prior to export, stating that the products still meet the original conditions for importation into Tahiti.

Note: for the re-export of *Coffea* spp. unpasteurized green beans, the following

requirements must be met:

Coffea spp.

Coffee beans

(unpasteurized green coffee beans, for human consumption)

Conditions:

Import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

The products must be clean and healthy and must not harbour live pests. The products must have been produced and packaged commercially.

Prior to shipment the products must have been fumigated with methyl bromide under the following conditions:

56 g/m³ for 2 hours at 5°C – 10°C, or

48 g/m³ for 2 hours at 11°C – 15°C, or

40 g/m³ for 2 hours at 16°C – 20°C, or

32 g/m³ for 2 hours at 21°C – 25°C, or

24 g/m³ for 2 hours at 26°C – 30°C, or

16 g/m³ for 2 hours at 31°C and above.

2.8 Transit

Consignments transiting Tahiti (that are not unloaded from the aircraft or ship) do not require an import permit or a phytosanitary certificate.

2.9 Wood packaging

Refer to forestry ICPR for French Polynesia, link below:

<http://www.mpi.govt.nz/law-and-policy/requirements/importing-countries-phytosanitary-requirements/forestry-icprs/french-polynesia/>

3. Commodity Class Requirements

3.1 Fruit and Vegetables

3.1.1 Fresh Fruit and Vegetables

Conditions:

Import permit not required. Phytosanitary certificate with **either** an additional declaration or treatment (if the additional declaration cannot be provided) required. In some cases treatment is required regardless of the results of the phytosanitary inspection (such cases will be clearly identified in Section 4). Treatments if/when applied must be identified upon the phytosanitary certificate.

Additional declarations:

Please refer to Section 4.1 for other additional declarations, which may apply for specific commodities

Treatments:

Where it is not possible for the additional declaration specified in Section 4.1 to be provided by MPI, the following treatments shall be carried out, unless specified differently in Section 4.

- (i) Cold Treatment:
against *Bactrocera* spp.

at max.of 0°C for a minimum of 12 days
at max.of 2.5°C for a minimum of 22 days

against *Ceratitis capitata*
at max.of 0°C for a minimum of 10 days
at max.of 2.5°C or less for a minimum of 16 days

Or

(ii) The products must have been fumigated with methyl bromide at 32 g/m³ for 2 hours at a core temperature of the fruit of 15 °C (add 8 g/m³ for each 5 °C below 15 °C or subtract 8 g/m³ for each 5 °C above 15 °C with a minimum of 16 g/m³ methyl bromide concentration).

- Note:**
1. Phytosanitary certificates must specify the date when the treatment started (and the end if it ended before loading) and the temperature of the treatment.
 2. Treatment must be completed prior to unloading in French Polynesia.
 3. Graphs of temperature records are to be made available to phytosanitary inspectors. See specific commodity requirements (Section 4.1)

Fresh berryfruit (not otherwise specified in Section 4.1)

Conditions:

Import permit not required. Phytosanitary certificate with Additional declaration or treatment required.

Additional declaration:

"Free from *Bactrocera* spp. and *Ceratitis capitata*"

Treatment:

Fumigation or cold treatments (see 3.1.1 - Fresh fruit and vegetables)

Edible and aromatic plants [Other] (not otherwise specified in Section 4.1)

Conditions:

Import permit not required. Phytosanitary certificate with Additional declaration or treatment required.

Additional declaration:

"Free from *Bemisia tabaci*, *Liriomyza* spp. and *Frankliniella occidentalis*"

Treatment:

Fumigation or cold treatments (see 3.1.1 - Fresh fruit and vegetables)

Leafy vegetables (except Lettuce and those not specified in Section 4.1)

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bemisia tabaci*, *Liriomyza* spp. and *Frankliniella occidentalis*"

Treatment:

Fumigation or cold treatments (see 3.1.1 - Fresh fruit and vegetables)

Root vegetables (not otherwise specified in Section 4.1)

Conditions:

Import permit not required. Phytosanitary certificate with Additional declaration or

treatment required.

Additional declaration:

"Free from *Bemisia tabaci*, *Liriomyza* spp. and *Frankliniella occidentalis*"

Treatment:

Fumigation or cold treatments (see 3.1.1 - Fresh fruit and vegetables)

3.1.2 Dried/Cured/Processed Fruit and Vegetables

Conditions:

Import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"Free from live parasites"

And if required

"This product is packed in airtight sealed retail packaging"

Note: Dried product imported for personal use (up to 5 kg) does not require a phytosanitary certificate if packed in airtight commercial packaging.

3.2 Cut Flowers and Foliage

Conditions:

Import permit and phytosanitary certificate required. Treatment required. Must be free of soil, sand and compost. Refer Section 4.2 for specific commodity requirements.

If flowers / foliage are wrapped, the wrapping material must be inert, and must be free of 'animal parts'. Permissible wrapping material:

- sphagnum moss
- synthetic moss
- perlite
- paper
- plastic
- vermiculite

Treatment:

Flowers and foliage must be treated prior to export.

1. Treatment must be identified on the phytosanitary certificate.

AND

2. Treatment with an insecticide and fungicide. Flowers may be dipped **OR** sprayed.

OR

3. Fumigation with methyl bromide at a rate of 32g/m³ for 2 hours at 21-25°C (add 8g/m³ for each 5°C below 21°C or subtract 8g/m³ for each 5°C above 25°C, with a minimum of 16g/m³ applied

3.3 Nursery Stock

Conditions:

Import permit and phytosanitary certificate required. Please refer to your import permit as not all requirements may be listed on the the ICPR. See specific commodity requirements Section 4.4.

3.4 Seeds, Grains and Nuts

3.4.1 Seeds, Grains and Nuts for Sowing

Conditions:

Import permit and phytosanitary certificate required. Please refer to your import permit as not all requirements may be listed on the the ICPR. See specific commodity requirements Section 4.5.1.

3.4.2 Seeds, Grains and Nuts for Consumption

Seeds

Conditions:

Consisting of whole or ground grain. Import permit not required. Phytosanitary certificate and additional declaration required. See specific commodity requirements Section 4.5.2.

Additional declaration:

"Free from live parasites"

Nuts

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required. See specific commodity requirements Section 4.5.2.

Additional declaration:

"Free from *Bactrocera* spp. and *Ceratitis capitata*"

Treatment:

Fumigation or cold treatments (see 3.1.1 - Fresh fruit and vegetables).

3.4.3 Seeds, Grains and Nuts for Processing

Conditions:

Consisting of whole or ground grain. Import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"Free from live parasites"

3.5 Growing Media and Packing Material

3.5.1 Growing Media

Conditions:

Import permit required. Phytosanitary certificate and treatment required. Treatment details must be identified upon the phytosanitary certificate. Please refer to your import permit as not all requirements may be listed on the ICPR.

- Media must be packaged in plastic packaging and be free from live insects, seeds, soil, faeces, feathers, or other animal related material.
- If the product contains peat, it must have been extracted outside a farming area, and below 2 meters depth OR the peat moss must have been heat dried in a rotating dryer drum at a minimum temperature of 700 °C for at least 6 minutes.
- If the product contains clay or sand, it should be extracted below 2 meters depth.
- If the substrate contains pine bark, the country or area must be free of *Fusarium circinatum*.

Treatment:

One of the following treatments is required for growing media, peat and coconut husk at the latest 21 days before the date of dispatch:

Heat treatment at 85 °C for 15 hours, once the temperature is reached in the core of the product,

Or

Gamma irradiation at 25 kGray (not available in New Zealand),

Or

Sulfuryl fluoride at 64g/m³ for 24 hours at 21 °C (after the packaging material has been adequately perforated),

Or

Fumigation with phosphine at 2g/m³

For 12 days at 16-20 °C OR

For 9 days at 21-25 °C OR

For 5 days at a temperature above 26 °C

Or

Fumigation with methyl bromide for 24 continuous hours at the following concentrations:

For substrate made of 100% coco compressed fiber:

48 g/m³ at 26 °C or more OR

64 g/m³ between 21 °C and 25 °C OR

80 g/m³ between 16 °C and 20 °C OR

96 g/m³ between 10 °C and 15 °C

For substrate made of 100% peat:

80 g/m³ between 25 °C and 21 °C OR

88 g/m³ between 20 °C and 16 °C OR

96 g/m³ between 15 °C and 10 °C

For all other substrates:

100 g/m³ at 26 °C or more OR

116 g/m³ between 21 °C and 25 °C OR

132 g/m³ between 16 °C and 20 °C OR

148 g/m³ between 10 °C and 15 °C

The methyl bromide concentration must be continuously monitored, for example by using a fumiscope and adjusted if the required concentration drops. Plastic bags must be perforated to ensure adequate dispersion of the fumigant.

3.5.2 Packing Material

Conditions:

Import permit required. Phytosanitary certificate and treatment required, please refer to import permit.

3.6 Animal Feed

Conditions:

Refer section 4.7.

3.7 Miscellaneous Material

Conditions:

Import permit required. Phytosanitary certificate and additional declaration or

treatment required. Please refer to your import permit as not all requirements may be listed on the the ICPR.

4. Commodity Specific Requirements

Note: Additional declarations given below are indicative only, and are provided to guide exporters on conditions that French Polynesia has previously required. Exporters should refer to conditions identified upon their current Import permit

4.1 Fresh Fruit and Vegetables

Actinidia deliciosa

Kiwifruit

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bactrocera* spp., *Ceratitis capitata* and *Quadraspidiotus perniciosus*"

Allium spp.

Chives, garlic, leeks, onions, shallots

Conditions:

Import permit not required. Phytosanitary certificate and additional declaration or treatment required. Bulbs must be dry, non-sprouted and for consumption only.

Additional declaration:

"Inspected and found free from *Delia antiqua*, *Peronospora destructor* and from a production site inspected and found free from *Urocystis cepulae*"

Or

Treatment:

Fumigation with methyl bromide under the following conditions:

- 48g/m³ for 2 hours at temperature between 10°C and 15°C.
- 40g/m³ for 2 hours at temperature between 16°C and 21°C.
- 32g/m³ for 2 hours at temperature between 22°C and 27°C.
- 24g/m³ for 2 hours at temperature between 28°C and 32°C.

Capsicum spp.

Capsicum

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration required. Capsicums must be fresh and without leaves. Peduncles must not be longer than 1.5 cm. French Polynesia accepts pest free area status for PSTVd in New Zealand and the additional declaration can be verified on this basis.

Additional declaration:

"The country is free from PSTVd"

And

"Free from *Bemisia tabaci*, *Frankliniella occidentalis* and *Quadraspidiotus perniciosus*.

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Treatment requirements:

The following treatments are accepted in place of the additional declaration for *Bemisia tabaci* and *Frankliniella occidentalis* if it cannot be met:

Fumigation with methyl bromide at 32 g/m³ for 2 hours at a temperature not less than 15 °C.

If the temperature is below 15 °C then the following options are available:

5-10 °C: 40 g/m³ for 5 hours;

11-15°C: 40 g/m³ for 4 hours.

Citrus spp.

Citrus

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required. The fruit must not have any peduncle and leaf attached.

Additional declaration:

"The country or zone of origin must be officially free of *Xanthomonas campestris* pv. *aurantifolii*, and *Xanthomonas campestris* pv. *citri*".

And

"Free from *Quadraspidiotus perniciosus*, *Scirtothrips aurantii* and *Scirtothrips citri*"

And

"The country or zone of origin must be free of *Guignardia citricarpa* and *Phaeoramularia (Cercospora) angolensis*"

Or

"No signs of *Guignardia citricarpa* and *Phaeoramularia (Cercospora) angolensis* have been observed in the production zone or in its immediate surroundings (last growing season), and none of the fruit harvested in the production zone has shown any signs of *Guignardia citricarpa* and *Phaeoramularia (Cercospora) angolensis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*."

Citrullus spp.

Watermelon

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free of *Bemisia* spp. and *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*."

Cucumis spp

Melon/Cucumber

Cucumis melo, cucumis metuliferus,

Cucumis sativus

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free of *Bemisia* spp. and *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*."

Cucurbita spp.

Squash/pumpkin

Cucurbita moschata, cucurbita pepo,

Cucurbita pepo var. melopepo

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or

treatment required.

Additional declaration:

"Free of *Bemisia* spp. and *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Diospyros spp.

Persimmon

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bactrocera* spp. and *Ceratitis capitata*"

Fragaria spp.

Strawberry

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bactrocera* spp., *Ceratitis capitata* and *Frankliniella occidentalis*"

Lactuca sativa

Lettuce

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration required.

Additional declaration:

"Free from *Bemisia tabaci*, *Frankliniella occidentalis*, *Liriomyza* spp. and *Nasonovia ribisnigri*"

Litchi chinensis

Lychee

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bemisia* spp. and *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Malus sylvestris var. pumila

Apples

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Quadraspidiotus perniciosus*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Nephelium lappaceum

Rambutan

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Olea europaea

Olive

Conditions:

Import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"Free from live parasites"

Passiflora edulis

Passionfruit

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*"

Phaseolus spp.

Beans

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration.

Additional declaration:

"Free from *Bemisia tabaci*, *Frankliniella occidentalis* and *Liriomyza* spp."

Physalis peruviana

Chinese lantern

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bemisia* spp., and *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Prunus spp.

Stonefruit

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Quadraspidiotus perniciosus*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Pyrus communis

Pear

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Quadraspidiotus perniciosus*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Pyrus pyrifolia

Nashi

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Quadraspidiotus perniciosus*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Ribes spp.

Gooseberry

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Rubus spp.

Blackberry & Raspberry

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Solanum melogena var. esculentum

Eggplant

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bemisia tabaci* and *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Solanum muricatum

Pepino

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required..

Additional declaration:

"Free from *Bemisia* spp. and *Frankliniella occidentalis*"

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Solanum lycopersicum

Tomato

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration required. Tomatoes must be fresh, without leaves and peduncles. Truss tomatoes are not permitted. French Polynesia accepts pest free area status for PSTVd in New Zealand and the additional declaration can be verified on this basis.

Additional declaration:

"The country is free from PSTVd"

And

"New Zealand is free from *Bactrocera* spp., and *Ceratitis capitata*"

And

"Free from *Bemisia* spp. and *Frankliniella occidentalis*"

Treatment requirements:

The following treatments are accepted in place of the additional declaration for *Bemisia tabaci* and *Frankliniella occidentalis* if it cannot be met:

Fumigation with methyl bromide at 32 g/m³ for 2 hours at a temperature not less than 15 °C.

If the temperature is below 15 °C then the following options are available:

5-10 °C: 40 g/m³ for 5 hours;

11-15°C: 40 g/m³ for 4 hours.

Solanum tuberosum

Potato

Conditions:

For consumption only. Import permit not required. Phytosanitary certificate with additional declaration or treatment required. Must have undergone anti-germination treatment prior to export. Must be free of soil or ≤ 25g soil per inspection sample. Refer also to additional requirements within "MPI Phytosanitary Official Assurance Programme for Potato Cyst Nematode and Potato Wart." <http://www.mpi.govt.nz/document-vault/743>

Additional declaration:

"Free from *Corynebacterium sepedonicum*, *Leptinotarsa decemlineata*, *Globodera pallida* and *Globodera rostochiensis*, *Synchytrium endobioticum*"

OR

Treatment:

Fumigation with methyl bromide under the following conditions:

- 48g/m³ for 2 hours at temperature between 10°C and 15°C.
- 40g/m³ for 2 hours at temperature between 16°C and 21°C.
- 32g/m³ for 2 hours at temperature between 22°C and 27°C.
- 24g/m³ for 2 hours at temperature between 28°C and 32°C.

Vaccinium corymbosum

Blueberry

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"Free from *Bactrocera* spp. and *Ceratitis capitata*"

Vaccinium myrtillus

Bilberry

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required.

Additional declaration:

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

Vitis spp.

Grapes

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration or treatment required. No leaf to be present. Peduncles to be less than 1 cm long.

Additional declaration:

"Free from *Cochylis* spp. and *Quadraspidiotus perniciosus*".

And

"New Zealand is free from *Bactrocera* spp. and *Ceratitis capitata*".

4.2 Dried/Cured/Processed Fruit and Vegetables

Ananas comosus

Pineapple (dried)

Conditions:

Import permit not required. Phytosanitary certificate and additional declarations required.

Additional declaration:

"This product is packed in airtight sealed retail packaging"

And

"This consignment is free from live parasites (specifically *Aspergillus flavus*)"

Citrus spp.

Citrus Peel (dried)

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration required.

Additional declaration:

"The country or zone of origin must be officially free of *Xanthomonas campestris* pv. *aurantifolii*, and *Xanthomonas campestris* pv. *citri*".

And

"The country or zone of origin must be free of *Guignardia citricarpa* and *Phaeoramularia (Cercospora) angolensis*"

Or

"No signs of *Guignardia citricarpa* and *Phaeoramularia (Cercospora) angolensis* have been observed in the production zone or in its immediate surroundings (last growing season), and none of the fruit harvested in the production zone has shown any signs of *Guignardia citricarpa* and *Phaeoramularia (Cercospora) angolensis*"

Treatment:

If any one of the conditions above cannot be met, the products must be heat treated at a temperature of 85°C for 8 hours.

Durio zibenithus

Durian (dried)

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration required.

Additional declaration:

"This product is packed in airtight sealed retail packaging"

And

"This consignment is free from live parasites (specifically *Aspergillus flavus*)"

Mangifera indica

Mango (preserved)

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration required.

Additional declaration:

"This product is packed in airtight sealed retail packaging"

And

"This consignment is free from live parasites (specifically *Aspergillus flavus*)"

Musa spp.

Banana (chips)

Conditions:

Import permit not required. Phytosanitary certificate with additional declaration required.

Additional declaration:

"This product is packed in airtight sealed retail packaging"

4.3 Fresh Cut Flowers and Foliage

Treatment options for Fresh Cut Flowers and Foliage are specified in Section 3.2

Aconitum spp.

Wolfsbane

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Agapanthus spp.

Agapanthus

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Agonis spp.

Willow myrtle

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Alstroemeria spp.

Peruvian lily

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Amaranthus spp.

Tassel flower

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Meloidogyne incognita*"

Amaryllis spp.

Belladonna lily

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Cucumber mosaic virus, *Eumerus tuberculatus*, *Heliothrips haemorrhoidalis*, *Merodon equestris*, *Pratylenchus scribneri* and *Stenotarsonemus laticeps*"

Anigozanthus spp.

Kangaroo's paw

Conditions:

Import permit, phytosanitary certificate and treatment required.

Antirrhinum spp.

Snapdragon

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Astartia spp.

Astartia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Astilbe spp.

False spiraea

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Certified free from Hydrangea ringspot virus, Hydrangea virescence mycoplasma, *Lepidosaphes ulmi*, *Pucciniastrum hydrangea*, *Ralstonia (Pseudomonas) solanacearum* and Tobacco ringspot virus"

Baekalea spp.

Twiggy heath myrtle

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Bambusa spp.

Bamboo

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Free from *Antonina crawi*, Bamboo mosaic virus, *Cyrtotrachelus longimanus*, *Dinoderus minutus*, *Lyctus brunneus*, *Myzocallis arundinariae*, *Puccinia arundinariae*, *P. melanocephala* and *Ustilago shiraiana*"

Banksia spp.

Banksia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Beaucarnea spp.

Ponytail palm

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Bouvardia spp.

Bouvardia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Callistephus chinensis

Chinese aster

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Casuarina spp.

She-oak

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Chrysanthemum spp.

Chrysanthemum

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Free from *Didymella chrysanthemi*, *Erwinia chrysanthemi*, *Frankliniella occidentalis*, *Liriomyza* spp. and *Puccinia horiana*"

Convallaria spp.

Lily of the valley

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Cytisus spp.

Broom

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Delphinium spp. (except D. glaucum)

Delphinium

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Dianthus caryophyllus

Carnation

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Etched ringspot virus, *Frankliniella occidentalis*, Mottle streak virus and Ringspot virus"

Eremurus spp.

Foxtail lily

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Eryngium spp.

Sea holly

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Eucalyptus spp.

Eucalypt

Conditions:

Import permit required. Phytosanitary certificate and additional Declaration required.
Treatment required.

Additional Declaration:

The production area and its vicinity must be free from *Puccinia psidii* and *Mycosphaerella parva*.

Forsythia spp.

Forsythia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Freesia spp.

Freesia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Gardenia spp. (except G. tahitensis)

Gardenia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Corticium salmonicolor* and *Xanthomonas campestris* pv. *maculifoliigardeniae*"

Gentiana spp.

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Geranium spp.

Geranium

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Alfalfa mosaic virus, *Corynebacterium* spp., Cucumber mosaic virus, Pelargonium flower break virus, *Puccinia pelargonii-zonalis*, Tobacco ringspot virus, Tomato bushy stunt virus, Tomato ringspot virus *Xanthomonas campestris* pv. *pelargonii* and *Xanthomonas* spp."

Gerbera spp.

Gerbera

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Frankliniella occidentalis* and *Liriomyza* spp. "

Gladiolus spp.

Gladiolus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Wassmannia auropunctata*"

Grevillea spp. (except G. banksii & G. robusta)

Grevillea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Gypsophila spp.

Baby's breath

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Etched ringspot virus, *Frankliniella occidentalis*, Mottle streak virus and Ringspot virus"

Helianthus annuus

Sunflower

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Helianthus spp.

Sunflower

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Hedera helix

Ivy

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Hydrangea spp.

Hydrangea

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Certified free from Hydrangea virescence mycoplasma, Hydrangea ringspot virus, *Lepidosaphes ulmi*, *Ralstonia (Pseudomonas) solanacearum* and *Pucciniastrum hydrangea*"

Iberis spp.

Candytuft

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Iralectrum spp.

Iralectrum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Iris spp.

Iris

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Ixia spp.

African corn lily

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Lagerstroemia spp.

Lagerstroemia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Leucadendron spp.

Leucadendron

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Leucospermum spp.

Leucospermum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Liatris spp.

Blazing star

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Lilium spp.

Lily

Conditions:

Import permit required. Phytosanitary certificate required. Treatment required.

Limonium spp.

Statice

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Liriope spp.

Liriope

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Lisianthus spp.

Lisianthus

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Lophomyrtus spp.

Ramarama, Rohuhu

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Mimosa spp. (except for *M. invisa*, *M. pigra* & *M. pudica*)

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Moluccella spp.

Bells of Ireland

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Muscari spp.

Grape hyacinth

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Narcissus spp.

Daffodil

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Nerine spp.

Nerine

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Orchidaceae

Orchid

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Ornithogalum spp.

Star of Bethlehem

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Paeonia spp.

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pelargonium spp.

Pelargonium

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Alfalfa mosaic virus, *Corynebacterium* spp., Cucumber mosaic virus, Pelargonium flower break virus, *Puccinia pelargonii-zonalis*, Tobacco ringspot virus, Tomato bushy stunt virus, Tomato ringspot virus, *Xanthomonas campestris* pv. *pelargonii* and *Xanthomonas* spp."

Peperomia spp.

Radiator plant

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Phytophthora parasitica* and Ringspot virus"

Phlox spp.

Phlox

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Phormium spp.

New Zealand flax

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pittosporum spp. (except *P. undulatum*)

Pittosporum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pleomele spp.

Pleomele

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Protea spp.

Protea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Rosa spp.

Rose

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, *Erwinia amylovora*, *Kuehneola japonica* and *Phramidium* spp."

Sandersonia spp.

Sandersonia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Solidago spp.

Goldenrod

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Tulipa spp.

Tulip

Conditions:

Import permit required. Phytosanitary certificate required. Treatment required.

Veronica spp.

Veronica

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Viburnum spp.

Viburnum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Vitex spp.

Puriri

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Xerophyllum tenax

Elk/bear grass

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Yucca spp.

Yucca

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Zinnia spp.

Zinnia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Chrysanthemum stunt virus, *Didymella chrysanthemi*, *Erwinia chrysanthemi*, *Frankliniella occidentalis*, *Liriomyza* spp. and *Puccinia horiana*"

4.4 Nursery Stock

4.4.1 Whole Plants

Abutilon spp.

Chinese lantern

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Verticillium dahliae*"

Acalypha spp.

Acalypha

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora* spp."

Acer palmatum

Japanese maple

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Verticillium dahliae*"

Adenium spp.

Impala lily

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Aeonium spp.

Aeonium

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Aeschinanthus spp.

Lipstick plant

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Erwinia* spp. and *Pseudomonas gladioli*"

Agapanthus spp.

Agapanthus

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Agave spp.

Agave

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Agonis spp.

Willow myrtle

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Allamanda spp.

Allamanda

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Cucumber mosaic virus"

Aloe spp.

Aloe

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Phytophthora parasitica* and *Uromyces aloes*"

Amaranthus spp.

Tassel flower

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Meloidogyne incognita*"

Annona muricat

Soursop

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Ditylenchus* spp., *Helicotylenchus* spp., *Meloidogyne* spp., *Pestalotia* spp., *Phomopsis* spp., *Radopholus williamsi* and *Rotylenchus reniformis*"

Annona reticulata

Soursop/Custard apple

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Aphelenchoides* spp., *Helicotylenchus dihystera*, *Hemicriconemoides* spp., *Phoma* spp. and *Rotylenchus reniformis*"

Annona squamosa

Custard apple

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Lasiodiplodia theobromae*"

Aralia spp.

Aralia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Araucariaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Asparagus spp.

Asparagus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora asparagi* and *Helicotylenchus microcephalus*"

Asplenium spp.

Asplenium fern

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Aphelenchoides fragariae*, *Erwinia chrysanthemi*, Hyacinth Lister disease mycoplasma, *Pseudomonas asplenii*, Tobacco rattle virus, *Xanthomonas campestris* pv. *hyacinthi* and Tomato spotted wilt virus"

Astartia spp.

Astartia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Averrhoa carambola

Carambola

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from *Helicotylenchus pseudorobustus*, *Hemicriconemoides mangiferae* and *Rotylenchus reniformis* "

Bambusa spp.

Bamboo

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from *Antonina crawi*, Bamboo mosaic virus, *Cyrtotrachelus longimanus*, *Dinoderus minutus*, *Lyctus brunneus*, *Myzocallis arundinariae*, *Puccinia arundinariae*, *Puccinia. melanocephala* and *Ustilago shiraiana*"

Banksia spp.

Banksia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Bauhinia spp.

Bauhinia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from *Ditylenchus* spp., *Glomerella cingulata*, *Helicotylenchus mucronatus* and *Meloidogyne* spp."

Beaucarnea spp.

Ponytail palm

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Begonia spp.

Begonia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Certified free from *Aphelenchoides olesistus*, *Howardia biclavis*, *Otiorynchus sulcatus*, *Stenotarsonemus pallidus*, Tobacco ringspot virus and *Xanthomonas campestris* pv. *begoniae*"

And

"The production site must be officially free of *Bemisia tabaci*"

Or

"No signs indicating the presence of *Bemisia tabaci* were observed on plants from the production site during official inspections performed at least once per month preceding exportation

Or

Treatment:

Fumigation with methyl bromide at a rate of 32g/m³ for 2 hours at 25°C

And

"The zone must be free of *Heliothrips haemorrhoidalis*"

Or

Treatment:

Fumigation with methyl bromide at a rate of 32g/m³ for 2 hours at 21-25°C (add 8g/m³ for each 5°C below 21°C or subtract 8g/m³ for each 5°C above 25°C, with a minimum of

16g/m³ applied.

Or

The plants must be immersed for 1 minute in a solution containing one of the following insecticides: *malathion* (10g), *fenitrothion* (5.5g), *dimethoate* (5g), *phosalone* (6g) or *methidathion* (5g) in 10 litres of water. Substitution of any required pesticides with an equivalent product is subject to prior written approval from the Plant Protection Department.

Bouea macrophylla

Bouea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Bougainvillea spp.

Bougainvillea

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora bougainvilleae*, *Phytophthora parasitica*, *Pseudomonas andropogonis* and *Rotylenchus* spp."

Breynia nivos

Snowbush

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Bunchosia spp.

Bunchosia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora* spp."

Buxus spp.

Box

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Cactus spp.

Cactus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cactus virus*, *Diaspis echinocacti* and *Rhizoecus falcifer*"

Calathea spp.

Peacock plant

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Radopholus* spp. and *Xanthomonas* spp."

Callistemon spp.

Bottlebrush

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Camellia sinensis

Tea

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Aphelenchoides* spp., Banana bunchy top virus, Banana mosaic virus, Banana streak virus, *Botryodiplodia* spp., *Ciborinia camelliae*, *Fusarium* spp., *Meloidogyne incognita*, *Phomopsis theae*, *Phytophthora cinnamomi*, *Pratylenchus* spp. and *Rotylenchus reniformis*"

Camellia spp.

Camellia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Banana bunchy top virus, Banana mosaic virus and Banana streak virus"

Canarium odontophyllum

Canarium

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Carismiroa terameria

Carismiroa

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Fusarium* spp."

Carissa spp.

Natal Plum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Castanopsis spp.

Castanopsis

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Castanospermum spp.

Morton bay chestnut

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Cephalocereus spp.

Old man cactus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Ceratonia siliqua

Carob

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.
Additional declaration:
"Free from *Pseudomonas* spp."

Cereus spp.

Cereus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Chamaecereus spp.

Chamaecereus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Chrysanthemum spp.

Chrysanthemum

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Chrysanthemum stunt virus, *Didymella chrysanthemi*, *Erwinia chrysanthemi*, *Frankliniella occidentalis*, *Liriomyza* spp., and *Puccinia horiana*"

Chrysophyllum spp.

Chrysophyllum

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Phytophthora parasitica*"

Clausena lansium

Wampi

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Clusia spp.

Balsam apple

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Codiaeum spp.

Croton

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Corynebacterium flaccumfaciens* pv. *poinsettiae*, *Kutilakesa pironii*, Poinsettia mosaic virus, *Pseudomonas viridiflava* and *Xanthomonas campestris* pv. *poinsetticola*"

Columnea spp.

Columnea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Convallaria spp.

Lily of the valley

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Cordyline spp.

New Zealand cabbage tree

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Erwinia chrysanthemi*, *Helicotylenchus* spp., *Phytophthora parasitica*, *Rotylenchus reniformis*, *Sophonia rufofascia* and *Xanthomonas* spp."

Cotoneaster spp.

Cotoneaster

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Erwinia amylovora*"

Cotyledon spp.

Pig's ear

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Couepia spp.

Couepia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Crassula spp.

Crassula

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Cuphea spp.

Cuphea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Cupressaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Dianthus caryophyllus

Carnation

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Etched ringspot virus, *Frankliniella occidentalis*, Mottle streak virus and Ringspot virus"

Dimocarpus longan

Dimocarpus

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Diospyros spp.

Persimmon

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Aecidium miliare*, *Ditylenchus* spp., *Pratylenchus brachyurus* and *Pseudocercospora* spp."

Dizygotheca spp.

Dizygotheca

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Dracaena spp.

Dracaena

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Phytophthora* spp., *Pratylenchus* spp., *Xanthomonas* spp. and Mosaic viruses"

Drosera spp.

Sundew

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Duranta spp.

Duranta

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Echinocactus spp.

Echinocactus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Cactus virus, *Diaspis echinocacti* and *Rhizoecus falcifer*"

Echinocereus spp.

Echinocereus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Ehretia macrophylla

Ehretia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Epiphyllum spp.

Orchid cactus

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Episcia spp.

Flame violet

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Erwinia* spp. and *Pseudomonas gladioli*"

Euonymus japonica

Spindle tree

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens* and *Verticillium heterocladium*"

Euphorbia spp. (except *E. hirta*)

Euphorbia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Corynebacterium flaccumfaciens* pv. *poinsettiae*, *Kutilakesa pironii*,
Poinsettia mosaic virus, *Pseudomonas viridiflava* and *Xanthomonas campestris* pv.
poinsettiicola "

Ferns (except *Athyris japonica*, *Blechnum occidentale*, *Cyathea australis* and *C. cooperi* - see Prohibition section 2.1)

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Pseudomonas gladioli*"

Feroniella lucida

Feroniella

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Flacourtia inermis

Flacourtia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Flacourtia ramontchi

Flacourtia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Treatment:

Treated with fungicide and insecticide (products and dosages to be recorded on phytosanitary certificate)

Flacourtia rukam

Flacourtia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora* spp. and *Hemicriconemoides mangiferae*"

Fragaria x ananassa

Strawberry

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Phytophthora fragariae*, Strawberry witches broom mycoplasma, Strawberry crinkle virus, Strawberry latent C virus, Strawberry ringspot virus, Strawberry vein banding virus and *Xanthomonas fragariae*"

Furcraea spp. (except *F. hexapetala* & *F. foetida*)

Furcraea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Garcinia dulcis

Garcinia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Pestalotia* spp."

Garcinia mangostana

Garcinia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Helicotylenchus dihystera* and *Rotylenchus reniformis*"

Garcinia myrtifolia

Garcinia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Discocriconemella discolabia* and *Pratylenchus coffeae*"

Garcinia ramontchi

Garcinia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Gardenia spp. (except *G. tahitensis*)

Gardenia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Corticium salmonicolor* and *Xanthomonas campestris* pv. *maculifoliigardeniae*"

Geranium spp.

Geranium

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Additional declaration:

"Free from Alfalfa mosaic virus, *Corynebacterium* spp., Cucumber mosaic virus, Pelargonium flower break virus, *Puccinia pelargonii-zonalis*, Tobacco ringspot virus, Tomato bushy stunt virus, Tomato ringspot virus, *Xanthomonas campestris* pv. *pelargonii* and *Xanthomonas* spp."

Ginkgoaceae

Ginkgo

Conditions:

Import permit required. Phytosanitary certificate, additional declaration and treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Gloxinia spp.

Gloxinia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Gnetum gnemon

Gnetum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Grevillea spp. (except *G. banksii* & *G. robusta*)

Grevillea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Gustavia spp.

Gustavia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Harpullia spp.

Harpullia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Free from *Cladosporium* spp., *Colletotrichum* spp. and *Leptosphaerulina chartorum*"

Hedera spp.

Ivy

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Free from *Xanthomonas campestris* pv. *hederae*"

Hibiscus spp.

Hibiscus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from *Erwinia chrysanthemi*, *Kuehneola malvicola*, *Ralstonia (Pseudomonas) solanacearum*, *P. syringae* pv. *syringae*, *Sophonia rufofascia*, Watermelon mosaic virus and *Xanthomonas campestris* pv. *malvacearum*"

Hoya spp.

Wax flower

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from *Erwinia chrysanthemi*, Hyacinth Lisser disease mycoplasma, Tobacco rattle virus, Tomato spotted wilt virus and, *Xanthomonas campestris* pv. *hyacinthi*"

Hyacinthus spp.

Hyacinth

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from Hyacinth Lisser disease mycoplasma, Tobacco rattle virus and *Xanthomonas campestris* pv. *hyacinthi*"

Hydrangea spp.

Hydrangea

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Certified free from Hydrangea virescence mycoplasma, Hydrangea ringspot virus, *Lepidosaphes ulmi*, *Ralstonia (Pseudomonas) solanacearum* and *Pucciniastrum hydrangea*"

Hypoestes aristata

Ribbon bush

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Iberis spp.

Candytuft

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Impatiens spp.

Impatiens

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from Impatiens necrotic spot virus, *Meloidogyne incognita*, *Ralstonia (Pseudomonas) solanacearum*, *Puccinia rubigo-vera* f.sp. *impatiens* and *Xanthomonas* spp."

Inga edulis

Inga

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Ixora spp.

Jungle flame

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Xanthomonas campestris* pv. *maculifoliigardeniae*"

Jasminum spp.

Jasmine

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Dialeurodes citri*, *Rotylenchus reniformis* and *Verticillium dahliae*"

Kalanchoe spp.

Kalanchoe

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Lantana calypso gem

Lantana

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Lemaireocereus spp.

Lemaireocereus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Leptospermum spp. (except *L. scoparium*)

Leptospermum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Leucadendron spp.

Leucadendron

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Leucospermum spp.

Leucospermum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Ligustrum spp. (except *L. robustum*)

Privet

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, Petunia asteroid mosaic virus and *Pseudomonas syringae*"

Liriope spp.

Liriope

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Litchi chinensis

Lychee

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Peronophythora litchi*"

Litsea garciae

Litsea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Lophanthera spp. (except *L. robustum*)

Lophanthera

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora* spp."

Magnolia spp.

Magnolia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Malpighia spp.

Barbados cherry/holly

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora* spp."

Malus spp.

Apple

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, Apple chat fruit mycoplasma, Apple proliferation mycoplasma, *Erwinia amylovora*, Peach mosaic virus, Pear decline mycoplasma, Plum line pattern virus, *Quadrascpidiotus perniciosus* and *Xanthomonas campestris* pv. *pruni*"

Malvaviscus spp.

Malvaviscus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Kuehneola malvicola*"

Mandevilla spp.

Mandevilla

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from mosaic & ringspot producing viruses"

Manilkara spp.

Manilkara

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Maranta spp.

Maranta

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Cucumber mosaic virus, *Puccinia thaliae* and *Radopholus similis*"

Melaleuca spp. (except *M. leucadendra* and *M. quinquenervia*)

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Meliolina cladotricha*"

Metrosideros spp.

Pohutukawa, rata

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Michelia spp.

Michelia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Mimosa spp. (except for *Mimosa invisa*, *M. pigra* & *M. pudica*)

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Mussaenda spp.

Red flag bush

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Myrciaria paraensis

Myrciaria

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Myristica fragrans

Nutmeg

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Myrtillocactus spp.

Myrtillocactus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Cactus virus, *Diaspis echinocacti* and *Rhizoecus falcifer* "

Myrtus spp.

Myrtle

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Nandina spp.

Sacred bamboo

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Narcissus spp.

Daffodil

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Nephelium lappaceum

Rambutan

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Aphelenchoides bicaudatus*, *Colletotrichum* spp., *Fusarium oxysporum* and *Rotylenchulus reniformis*"

Nephelium mutabile

Prickly pear

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Opuntia spp. (except *O. aurantiaca*, *O. ficus-indica*, & *O. cordobensis*)

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Oreocereus spp.

Old man of the Andes

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Osmanthus spp.

Osmanthus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Verticillium dahliae*"

Pachycereus spp.

Organ pipe cactus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Pachypodium lamarei

Pachypodium

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Paeonia spp.

Peony

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pavonia spp.

Pavonia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pelargonium spp.

Pelargonium

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Alfalfa mosaic virus, *Corynebacterium* spp., Cucumber mosaic virus, Pelargonium flower break virus, *Puccinia pelargonii-zonalis*, Tobacco ringspot virus, Tomato bushy stunt virus, Tomato ringspot virus, *Xanthomonas campestris* pv. *pelargonii* and *Xanthomonas* spp."

Peperomia spp.

Radiator plant

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Phytophthora parasitica* and Ringspot virus"

Petunia spp.

Petunia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Beet curly top virus, Cucumber mosaic virus, Petunia asteroid mosaic virus, *Ralstonia (Pseudomonas) solanacearum*, *Phytophthora parasitica* and Tobacco mosaic virus"

Platycerium spp.

Platycerium

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Pseudomonas gladioli* and *Pseudomonas cichorii*"

Pleomele spp.

Pleomele

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Plumeria spp.

Plumeria

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Coleosporium domingensis*"

Podocarpaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Polypodiaceae (except *Athyris japonica*, *Blechnum occidentale*, *Cyathea australis* and *C. cooperi* - see Prohibition section 2.1)

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Pseudomonas gladioli*"

Polyscias spp.

Aralia, Panax

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pourouma cecropiaefolia

Pourouma

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pouteria sapota

Pouteria

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Protea spp.

Protea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Prunus spp.

Stonefruit

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, Apple chat fruit mycoplasma, Apple proliferation mycoplasma, *Erwinia amylovora*, Peach mosaic virus, Pear decline mycoplasma, Plum line pattern virus, *Quadraspidiotus perniciosus* and *Xanthomonas campestris* pv. *pruni*"

Punica granatum

Pomegranate

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pyracantha spp.

Firethorn

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Erwinia amylovora*"

Pyrus spp.

Nashi pear, pear

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, Apple chat fruit mycoplasma, Apple proliferation mycoplasma, *Erwinia amylovora*, Peach mosaic virus, Pear decline mycoplasma, Plum line pattern virus, *Quadraspidiotus perniciosus* and *Xanthomonas campestris* pv. *pruni*"

Pteradophyta (see Prohibition section 2.1)

Ferns

Conditions:

Import permit required. Phytosanitary certificate, Additional declaration and treatment required.

Additional declaration:

"Free from *Pseudomonas gladioli*"

Rhododendron indicum

Indicum azalea

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Phytophthora cinnamomi*"

Rhododendron spp. (except *R. indicum*)

Rhododendron

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Apehlenchoides fragariae*, *Archips argyrospilus*, *Dialeurodes chittendeni*, *Gracilaria azaleella*, *Heliothrips haemorrhoidalis*, *Obera myops*, *Pucciniastrum vaccinii*, *Rhododendron necrotic ringspot virus*, *Stephanitis pyrioides*, *Stephanitis rhododendri*, *Synanthedon rhododendri* and *Thrips tabaci*"

Rosa spp.

Rose

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, *Erwinia amylovora*, Rose streak virus, Rose wilt virus and *Quadraspidiotus perniciosus*"

Saintpaulia spp.

African violet

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Sandersonia spp.

Sandersonia

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Sandoricum koetjape

Sandoricum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Sansevieria spp.

Sansevieria

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Fusarium moniliforme*"

Sedum spp.

Stonecrop

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Schefflera spp. (except *S. actinophylla*)

Shefflera

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Shorea macrophylla

Shorea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Spondias tuberosa

Spondias

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Syringa spp.

Lilac

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Syzygium spp. (except *S. cumini*)

Syzigium

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Tetrapanax spp.

Rice paper plant

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Trichocereus spp.

Trichocereus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Drechslera cactivora* and *Phytophthora cactorum*"

Tulipa spp.

Tulip

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Corynebacterium flaccumfaciens* pv. *cortii*, *Fusarium oxysporum* f.sp. *tulipae*, Lily symptomless virus, *Rhizoctonia tuliparum*, Tobacco necrosis virus, Tobacco rattle virus and Tulip breaking virus"

Ulmus spp.

Elm

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Elm phloem necrosis mycoplasma and *Pseudomonas syringae*"

Vitis spp.

Grapevine

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Indexed and free from Grapevine fanleaf virus, Viral leafroll disease (undetermined), *Erwinia vitivora*, Grapevine corky bark disease, Grapevine flavescence doree mycoplasma, *Viteus vitifolii* and, *Xanthomonas ampelina*"

Yucca spp.

Yucca

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

4.4.2 Budwood and Cuttings

Malus spp.

Apple

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, Apple chat fruit mycoplasma, Apple proliferation mycoplasma, *Erwinia amylovora*, Peach mosaic virus, Pear decline mycoplasma, Plum line pattern virus, *Quadrascidiotus perniciosus* and *Xanthomonas campestris* pv. *pruni*"

Prunus spp.

Stonefruit

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, Apple chat fruit mycoplasma, Apple proliferation mycoplasma, *Erwinia amylovora*, Peach mosaic virus, Pear decline mycoplasma, Plum line pattern virus, *Quadrascidiotus perniciosus* and *Xanthomonas campestris* pv. *pruni*"

Pyrus spp.

Nashi pear/pear

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Agrobacterium tumefaciens*, Apple chat fruit mycoplasma, Apple proliferation

mycoplasma, *Erwinia amylovora*, Peach mosaic virus, Pear decline mycoplasma, Plum line pattern virus, *Quadraspidiotus perniciosus* and *Xanthomonas campestris* pv. *pruni*"

Treatment:

Treated with fungicide and insecticide (products and dosages to be recorded on phytosanitary certificate)

Vitis spp.

Grapevine

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Indexed and free from Grapevine fanleaf virus, Viral leafroll disease (undetermined), *Erwinia vitivora*, Grapevine corky bark disease, Grapevine flavescence doree mycoplasma, *Viteus vitifolii* and *Xanthomonas ampelina*"

4.4.3 Bulbs/tubers/corms/rhizomes etc

Amaryllis spp.

Belladonna lily

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Free from Cucumber mosaic virus, *Eumerus tuberculatus*, *Heliothrips haemorrhoidalis*, *Merodon equestris*, *Pratylenchus scribneri* and *Stenotarsonemus laticeps*"

Gladiolus spp.

Gladiolus

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Free from Bean yellow mosaic virus, Cucumber mosaic virus, *Dysaphis tulipae*, *Fusarium oxysporum* f.sp. *gladioli*, *Pseudomonas gladioli*, *Stomatina gladioli*, *Taeniothrips simplex*, *Uromyces transversalis* and *Xanthomonas campestris* pv. *gummisudans*"

Lilium spp.

Lily

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required.

Additional declaration:

"Free from Cucumber mosaic virus, *Eumerus tuberculatus*, *Heliothrips haemorrhoidalis*, *Merodon equestris*, *Pratylenchus scribneri* and *Stenotarsonemus laticeps*"

Solanum tuberosum

Potato

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required. Treatment required. French Polynesia accepts pest free area status for PSTVd in New Zealand and the additional declaration can be verified on this basis.

Additional declaration:

"Free from *Corynebacterium sepedonicum*, *Ditylenchus destructor*, *Globodera pallida*, *G. rostochiensis*, *Leptinotarsa decimlineata*, Potato spindle tuber virus, *Ralstonia (Pseudomonas) solanacearum* and *Synchytrium endobioticum*"

And

"The country is free from PSTVd."

4.4.4 Tissue culture

Araceae family (except *Alocasia*, *Colocasia* and *Xanthosoma* spp.)

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Dasheen Mosaic Virus, *Pseudomonas* spp. and *Xanthomonas campestris* pv. *dieffenbachiae*"

Bromeliaceae family (except *Ananas* spp. - Pineapple)

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Pineapple wilt virus"

Heliconia spp.

False bird of paradise

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Banana bunchy top virus, Banana mosaic virus, Banana streak virus and *Ralstonia (Pseudomonas) solanacearum*"

Orchidaceae spp.

Orchid

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Indexed and free from Cymbidium mosaic virus, Odontoglossum ringspot virus, Vanilla mosaic potyvirus and Vanilla necrosis potyvirus"

Strelitzia spp.

Bird of paradise

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Banana bunchy top virus, Banana mosaic virus and Banana streak virus"

4.5 Seeds, Grains and Nuts

4.5.1 Seeds, Grains and Nuts for Sowing

Allium spp.

Onions

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Ditylenchus* spp., *Peronospora destructor*, *Pratylenchus* spp. and from a production site inspected and found free from *Urocystis cepulae*"

Araceae (except Alocasia, Colocasia and Xanthosoma spp.)

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Arachis hypogaea

Peanut

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Puccinia arachidis*"

Araucariaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Bouea macrophylla

Bouea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Bromeliaceae family (except Ananas spp. - Pineapple)

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Pineapple wilt virus"

Capsicum spp.

Capsicum

Conditions:

Import permit not required. Phytosanitary certificate and additional declaration required.
French Polynesia accepts pest free area status for PSTVd in New Zealand and the additional declaration can be verified on this basis.

Additional declaration for seeds from New Zealand:

"Free from *Bactrocera* spp., *Ceratitis capitata* and *Quadraspidiotus perniciosus*"

And

"The country is free from PSTVd"

Additional declaration for seeds for re-export of seeds produced in a country other than New Zealand:

"Free from *Bactrocera* spp., *Ceratitis capitata* and *Quadraspidiotus perniciosus*"

AND

"The seeds for sowing have been sourced from either a "pest free area" or a pest free

place of production", free from PSTVd"

Or

"The seeds for sowing have been officially tested, on a representative sample, and using appropriate methods, and found to be free from PSTVd."

Canarium odontophyllum

Canarium

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Carismiroa terameria

Carismiroa

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Fusarium* spp."

Castanopsis spp.

Castanopsis

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Ceiba pentandra

Silk cotton tree

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Didymella* spp., *Meloidogyne incognita* and *Pythium* spp."

Ceratonia siliqua

Carob

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Pseudomonas* spp."

Chrysanthemum spp.

Chrysanthemum

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Chrysanthemum stunt virus, *Didymella chrysanthemi*, *Erwinia chrysanthemi*, *Frankliniella occidentalis*, *Liriomyza* spp. and *Puccinia horiana*"

Citrus spp.

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required. Seeds must be dried and depulped.

Additional declaration:

"The area should be free of *Xylella fastidiosa*, *Xanthomonas axonopodis* (campestris) pv. *aurantifolii* and *Xanthomonas axonopodis* (campestris) pv. *citri*."

Clausena lansium

Wampi

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Codiaeum spp.

Croton

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Corynebacterium flaccumfaciens* pv. *poinsettiae*, *Kutilakesa pironii*, Poinsettia mosaic virus, *Pseudomonas viridiflava* and *Xanthomonas campestris* pv. *poinsetticola*"

Cupressaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Cycadaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Dianthus caryophyllus

Carnation

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Etched ringspot virus, *Frankliniella occidentalis*, Mottle streak virus and Ringspot virus"

Dimocarpus longan

Dimocarpus

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Durio zibethinus

Durian

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Didymella* spp., *Meloidogyne incognita* and *Pythium* spp."

Euphorbia spp.(except *E. hirta*)

Euphorbia

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Corynebacterium flaccumfaciens* pv. *poinsettiae*, *Kutilakesa pironii*, Poinsettia mosaic virus, *Pseudomonas viridiflava* and *Xanthomonas campestris* pv. *poisetticola*"

Geranium spp.

Geranium

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Alfalfa mosaic virus, *Corynebacterium* spp., Cucumber mosaic virus, Pelargonium flower break virus, *Puccinia pelargonii-zonalis*, Tobacco ringspot virus, Tomato bushy stunt virus, Tomato ringspot virus, *Xanthomonas campestris* pv. *pelargonii* and *Xanthomonas* spp."

Ginkgoaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Gnetum gnemon

Gnetum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Gymnosperms

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Heliconia spp.

False bird of paradise

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Banana bunchy top virus, Banana mosaic virus, Banana streak virus and *Ralstonia (Pseudomonas) solanacearum*"

Litchi chinensis

Lychee

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Peronophythora litchi*"

Litsea garciae

Litsea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Manilkara spp.

Manilkara

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Myristica fragrans

Myristica

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Nephelium lappaceum

Rambutan

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Aphelenchoides bicaudatus*, *Colletotrichum* spp., *Fusarium oxysporum* and *Rotylenchus reniformis*"

Nephelium mutabile

Prickly pear

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Arecaceae

Palms:

All palms except prohibited varieties (see Prohibitions section 2.1)

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Lethal yellowing mycoplasma"

Pelargonium spp.

Pelargonium

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Alfalfa mosaic virus, *Corynebacterium* spp., Cucumber mosaic virus, Pelargonium flower break virus, *Puccinia pelargonii-zonalis*, Tobacco ringspot virus, Tomato bushy stunt virus, Tomato ringspot virus, *Xanthomonas campestris* pv. *pelargonii* and *Xanthomonas* spp."

Pinaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Podocarpaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.

Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Pourouma cecropiaefolia

Pourouma

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Pouteria sapota

Pouteria

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Punica granatum

Pomegranate

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Sandoricum koetjape

Sandoricum

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Shorea macrophylla

Shorea

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Solanum lycopersicum

Tomato

Conditions:

Import permit not required. Phytosanitary certificate and additional declaration required. The seeds must be treated with fungicide and insecticide or a representative sample must be inspected. The seeds must be packed in sealed packaging. French Polynesia accepts pest free area status for PSTVd in New Zealand and the additional declaration can be verified on this basis.

Additional declaration for seeds from New Zealand:

"The country is free from PSTVd"

Additional declaration for seeds for re-export produced in a country other than New Zealand:

"The seeds for sowing have been sourced from either a "pest free area" or a pest free place of production", free from PSTVd"

Or

"The seeds for sowing have been officially tested, on a representative sample, and using appropriate methods, and found to be free from PSTVd."

Solanum pseudocapsicum

Jerusalem cherry

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Spondias tuberosa

Spondias

Conditions:

Import permit required. Phytosanitary certificate and treatment required.

Strelitzia spp.

Bird of paradise

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from Banana bunchy top virus, Banana mosaic virus and Banana streak virus"

Taxaceae

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Cercospora pini-densiflora*, *Cronartium* spp., *Gymnosporangium* spp., *Lophodermium pinastri* and *Peridermium* spp."

Zea mays

Corn/maize

Conditions:

Import permit required. Phytosanitary certificate and additional declaration required.
Treatment required.

Additional declaration:

"Free from *Diplodia macrospora*, *Diplodia maydis*, *Erwinia stewarti* and *Fusarium moniliforme*"

4.5.2 Seeds, Grains and Nuts for Consumption

Arachis hypogaea

Peanut

Conditions:

Phytosanitary certificate and additional declaration required. Must be shelled.

Additional declaration:

"Free from *Puccinia arachidis*"

Cocos nucifera

Coconut (Dessicated)

Conditions:

Phytosanitary certificate not required. Product must be packaged in airtight commercial packaging.

Pinus picea

Pinenut (Toasted)

Conditions:

Phytosanitary certificate and additional declaration required. Product must have been commercially produced and packaged in airtight commercial packaging. The products must have been transformed by means of a heat process.

Additional declaration:

"Free from live parasites"

4.6 Growing Media and Packaging Material

Refer Section 3.5.

4.7 Animal Feed

Zea mays

Phytosanitary certificate and additional declaration required.

Additional declaration:

"Free from live parasites"

and

"No *Fusarium moniliforme* or *Diplodia maydis* was detected.

And

"*Diplodia macrospora* and *Erwinia stewartii* are not known to occur in New Zealand"

Cattle cake

Conditions:

Phytosanitary certificate and additional declaration required.

Additional declaration:

"Free from live parasites"

4.8 Miscellaneous

Hay/Lucerne

Conditions:

Phytosanitary certificate and additional declaration required.

Additional declaration:

"Free from live parasites"

Raw vegetable matter used for packaging (e.g. straw)

Conditions:

Prohibited from countries infested with *Oryctes rhinoceros*, disinfection must be conducted at or before departure or the material will be incinerated on arrival.

Raw untreated timber, bark, wood, posts, cut timber (exceeding 6 mm in thickness)

Conditions:

Soil prohibited, no live parasites, prohibited from countries infested with *Oryctes rhinoceros*, and disinfection must be conducted at or before departure or incineration on arrival.
